## MOTIF

## LAKE PALACE

The Lake Palace of Udaipur, for which the city is famous, is also known as Jag Niwas. This stunning palace in the middle of Lake Pichola was built by Rana Jagat Singh-II as a pleasure palace. The palace became a favourite retreat for the Sisodia family as an escape from the pressures of court. It is now a luxurious five star hotel and a pride of Udaipur.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Mrs. Shubhra Singh, the then Joint Secretary & Director of Census Operations, Rajasthan. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

C. Chandramouli  
Registrar General &  
Census Commissioner, India

New Delhi.

## PREFACE

It is my pleasure to present this publication pertaining to the Village and Town wise Primary Census Abstract of the District as per Census 2011. It is a synopsis of the development made by the District in the past decade and the challenges ahead.

Rajasthan is the largest State in the country, with difficult terrain comprising desert, forests, mountains, tribal belt, ravines and a long international border. It also has typical hard to reach population groups. The mandate of universal coverage for census was a challenge in the State. I am deeply indebted to the State Government of Rajasthan for their unstinted support and cooperation at all stages of Census Operations of 2011. I am grateful to Shri Salahuddin Ahmad, the then Chief Secretary of Government of Rajasthan for his prompt response, guidance and cooperation given to the Census Organization. He infused a sense of urgency and seriousness in the minds of District Collectors and Officers of the District Administration, which geared up the entire administrative machinery. I also thank the Principal Secretary, GAD who liaised with the Directorate of Census Operations on behalf of the State Government. The GAD pursued pending action points pertaining to the different Departments of the State Government and ensured prompt response to the repeated requests made by the Directorate. I am also thankful to other Departments like Departments of School and Sanskrit Education, Home, Finance, Revenue, Planning, Public Relations, Local Self-government and Personnel Department for extending their full cooperation.

The Supervisors and Enumerators, the basic census field functionaries worked ceaselessly in the entire period of fieldwork to make Census 2011 successful.

I am deeply grateful to Dr. C.Chandramouli, Registrar General & Census Commissioner, India for his unstinted support and spontaneous, unfailing guidance throughout our endeavours and bringing out this publication. My grateful thanks to Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI, Dr. Pratibha Kumari, Assistant Registrar General (SS), Shri A.P. Singh, Deputy Registrar General (Map), Shri M.S.Thapa, Addl. Director (EDP), Shri A.K. Arora, Joint Director (EDP) and their colleagues at the headquarter office for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Joint Secretary & Director of Census Operations, Rajasthan, Ms. Shubhra Singh, under whose guidance the entire operations were carried out deserves all credit for its success, but she was repatriated to the Government for taking up some other important assignment before this volume could be made available for the release.

Shri Avinash Sharma, Assistant Director, incharge of Primary Census Abstract, who was ably assisted by his team of dedicated workers, deserves all praise for their perseverance and dedication in finalization of PCA. The contribution of Shri G.B. Goswami, Assistant Director (Data Centre), Shri K.C. Gupta, Assistant Director and Shri Puneet Mehrotra, Assistant Director is also memorable in finalization of PCA, Census, 2011.

Dr. Pulkesh Sharma, Assistant Director, incharge of Village & Town Directories and District Census Handbooks, coordinated the work with his team of devoted workers; contributed immensely with determination and dedication to the cause of digitization, validation and finalization of Village and Town Directories and preparation of District Census Handbooks, Census, 2011 in the stipulated time limit, deserves all appreciation.

The members of the staff in the Map Section did a commendable job under the guidance of Shri R.S. Tyagi, R.O. (Map) in bringing out various maps.

In view of the increasing demand of the publications in electronic format, it has been decided to release the DCHB Part-B in electronic format also.

## **HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK**

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block

(CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

## BRIEF HISTORY OF THE DISTRICT

The antiquity of the region of the Princely State of Mewar (ancient Medpat), with Udaipur as its capital, is pushed back to hoary past. The archaeological excavations conducted on sites like Ahar and Gilund evidently prove that the area was quite flourishing in ancient times. Through the diggings of the ancient mounds of above sites, material remains of the chalcolithic man have been unearthed who actually lived here around 1800 B.C. They have used wheel-made black and red deluxe pottery which is usually painted in white. They knew copper. Their buildings were made of undressed stones and they also made use of terracotta tiles for thatched roofing. After a break of several centuries, the site of Ahar was re-occupied by the people during the early days of the Christian era, coinciding with the Kushana period. They had a definite system of sanitation which is attested to by the discovery of ring wells and soakage jars.

The region has played its own role in the cultural heritage of Rajasthan under the aegis of the celebrated Guhilas who produced personalities like Kumbha, Sanga and Pratap. Fine sculptured temples were created at Ahar, Sarneshwar, Ekalingji, Nagda, Rikhabdeo etc. Fine places were raised on the banks of Pichhola Lake.

When the Mughal Emperor Akbar captured Chittorgarh in 1568 and the fort was looted and destroyed, Rana Udai Singh was founded Udaipur the new capital of Mewar. Although the Rajputs were thrown out of their capital they never gave up their sense of freedom, choosing to give up their lives for dignity and honour instead.

The foundation of the city has an interesting legend associated with it. According to it, Maharana Udai Singh, the founder, was hunting one day when he met a holy man meditating on a hill overlooking the Lake Pichhola. The hermit blessed the Maharana and advised him to build a palace at this favorably located spot with a fertile valley watered by the stream, a lake, an agreeable altitude and an amphitheater of low mountains. Maharana followed the advice of the hermit and founded the city in 1559 A.D. The Maharana built a small shrine, Dhuni Mata, to mark the spot which is now the oldest part of the City Palace.

In 1568, Chittor was attacked by the Mughal emperor, Akbar and to ward off this danger, Udai Singh shifted the whole kingdom to Udaipur. Udaipur was naturally safe under the fortifications made by Aravalli Hills. Since that time, Udaipur developed into a full-fledged city. Slowly when the Mughal Empire undermined, the Sisodias reasserted their freedom. They recaptured most of the parts of Mewar with the exception of the Chittorgarh Fort. Udaipur continued to be the capital of Mewar, till it became the princely state of British India in 1818. When India got independent in 1947, the Maharaja of Udaipur granted the place to the Government of India. At that time, Mewar was merged into the state of Rajasthan.

The valour and honour of the Sisodia clan is known everywhere - from the pages of history books to the folklore of Rajasthan. "O mother, give me

only unto the house of the Sisodias, if you must" says the lines of a popular folk song. The Mewar dynasty is the world's oldest surviving dynasty with a time span of 1,500 years and 26 generations and has outlived eight centuries of foreign domination. Extremely possessive about their culture, tradition and honour, the Sisodias have played an important role in medieval Indian history as tireless upholders of Hindu traditions.

It was in Udaipur that legendary Maharana Pratap was born. Rana Pratap who fought against Emperor Akbar in 1576 is remembered throughout India for his bravery on the battlefield. The rulers of Udaipur never gave any of their women in marriage to the Mughals unlike some of the other royal houses of Rajputana. Maharana Pratap Singh once refused lunch with Raja Man Singh because he had given away his sister in marriage to Prince Salim, later Mughal Emperor Jahangir. Man Singh avenged this insult by defeating Pratap at the battle of Haldighati. Pratap's son Amar Singh made peace with the Mughals but unable to accept his humiliation, he gave up his title in favour of his son Maharana Karan Singh. Amar Singh left Udaipur never to see its landscape again.

Maharana means Great Warrior, and the one from Udaipur is the acclaimed head of all the 36 Rajput clans. The title of Rana was adopted in the 12<sup>th</sup> century when the Parihara prince of Mandore awarded it to the Prince of Mewar. The Mewar dynasty descends from the sun family and is hence known as Suryavanshi (descendants of the Sun) with the sun as its insignia. The central shield on the coat of arms depicts a Bhil tribal, the sun, Chittor Fort and a Rajput warrior with a line from the Gita saying 'God helps those who do their duty'. The Maharana of Udaipur is crowned only after being anointed with blood drawn from the palm of a Bhil chieftain, who then leads the Maharana to the throne of Mewar. The rulers of Mewar were Rana Udaya Singh(1537-1572), Rana Pratap Singh(1572-1596), Rana Amar Singh(1596-1607), Rana Sogra(1607-1615), Rana Karan(1620 -1628), Rana Jagat Singh(1628-1652), Rana Raja Singh(1652 -1680), Rana Jaya Singh(1680 -1699), Rana Amar Singh II(1699 -1711), Rana Sangrama Singh II(1711-1734), Rana Jagat Singh II(1734-1752), Rana Pratap Singh II(1752-1754), Rana Raja Singh II(1754-1761), Rana Ari Singh II(1761-1771), Rana Hammir II (1771-1777), Maharana Bhim Singh(1777-1828), Maharana Jawan Singh(1828-1838), Maharana Sardar Singh(1838-1842), Maharana Sarup Singh(1842-1861), Maharana Sambhu(1861-1874), Maharana Sujjan Singh(1874-1884), Maharana Fateh Singh(1884-1930), Maharana Sir Bhupal Singh(1930-1955) and Maharana Bhagwat Singh(1955-1985).

Before Udaipur district was carved in its present form, it was a part of erstwhile Princely State of Mewar. With the formation of the United States of Rajasthan in 1948, a part of the district of Girwa, Khamnor, Rajnagar, Bhim, Magra, Kherwara and Kumbhalgarh, together with the Thikanas of Nathdwara, Kankroli, Salumbar (excluding Saira tehsil), Bhinder, Kanor, Bansi, Bari Sadri, Amet, Sardargarh, Deogarh and Gogunda were combined to constitute the district of Udaipur. After 1991 Census, seven tehsils of Udaipur district viz. Bhim, Deogarh, Amet, Kumbhalgarh, Rajsamand, Nathdwara and Railmagra were transferred on 10<sup>th</sup> April 1991 to make a new district Rajsamand.

After 2001 Census, two new tehsils have been made in Udaipur district namely Rishabhdeo and Lasadia. The Rishabhdeo tehsil has been formed on 03-04-2008 by including 79 villages of Kherwara and 19 villages of Sarada tehsils while in Lasadia tehsils 19 villages of Salumber and 88 villages of Dhariawad tehsils have been included on 25-01-2008. In Census 2011 there are 11 tehsils in Udaipur district.

## ADMINISTRATIVE SETUP

Udaipur District is Divisional Commissioner Head Quarter District. District Collector is head of the district for revenue, Law and order matters. District Collector & District Magistrate is the head of District Administration.

For administration and development, the district is divided in Sub-Divisions and tehsils (sub-districts). The District Udaipur has 11 sub-divisions. Each of the sub-divisions is headed by a Sub-divisional Officer (SDOs) / Magistrates, the officers are responsible for implementation of law and order matters in their respective sub-divisions.

There are 11 Tehsil headquarters in Udaipur district and each one has a Tehsildar as an administrative officer who works in accordance with the Land Record System to serve for the rural farmers and land holders and is responsible for maintaining the revenue matters in their respective tehsils.

For the purpose of the implementation of rural development projects/ Schemes under Panchayati Raj System, the district is divided in the 11 Panchayat Samitis (Blocks). Block Development Officer or Vikas Adhikari is the Controlling Officer of each of the Panchayat Samiti to serve as extension and developmental executive at block level. The compositions of Panchayat Samities are as follows:

Sl. No.	Name of Panchayat samiti	No. of Gram Panchayat	No. of Villages	Tehsil(s) (No. of Villages)	Census Towns
1	2	3	4	5	6
1	Mavli	42	179	Mavli (179)	Mavli (CT)
2	Gogunda	45	232	Gogunda (232)	Gogunda (CT)
3	Kotra	31	262	Kotra (262)	
4	Jhadol	45	283	Jhadol (283)	
5	Bargaon	26	108	Girwa (108)	Bedla (CT), Bargaon (Rural) (CT), Bhuwana (CT)
6	Girwa	48	217	Girwa (217)	Bichhri (CT)
7	Bhindar	52	305	Vallabhnagar (305)	
8	Lasadiya	19	114	Lasadiya (114)	
9	Salumbar	46	268	Salumbar (268)	
10	Sarada	44	219	Sarada (191), Rishabhdeo (28)	Bhalariya (CT), Newa Talai (CT), Chawand (CT), Semari (CT)
11	Kherwara	60	292	Rishabhdeo (97), Kherwara (195)	Kherwara Chhaoni (CT), Rishabhdeo (CT)
<b>Total</b>		<b>458</b>	<b>2479</b>		<b>12 Census Towns</b>

There are 5 statutory towns viz. Udaipur (M CL), Bhinder (M), Fatehnagar (M), Kanor (M) and Salumbar (M) in the Udaipur district.

## **DISTRICT HIGHLIGHTS- 2011 CENSUS**

- Udaipur district ranks 5<sup>th</sup> in terms of population, 8<sup>th</sup> in terms of area and 14<sup>th</sup> in terms of population density.
- Udaipur district has eleven tehsils, in which Girwa tehsil has the highest number of villages (325) whereas Lasadiya tehsil has lowest number of villages (114).
- Udaipur district has 2479 villages, out of them 2471 villages are inhabited and 8 villages are uninhabited. In Udaipur district 301 new villages and 8 new census towns have created as compared to 2001 Census.
- In Udaipur district, Vallabh Nagar (Tehsil: Vallabhnagar) is the most populous (8,053 persons) village; and Kamlod Ka Doongar (Tehsil: Girwa) is the least populous (03 persons) village.
- Udaipur district consists 80.2 percent rural and 19.8 percent urban population whereas the State percent of rural and urban population is 75.1 and 24.9 respectively.
- The sex ratio of Udaipur district (958) is significantly higher than the State sex ratio (928).
- The literacy rate in Udaipur district is 61.8 percent which is lower than the State Average (66.1 percent) and it ranks 21<sup>st</sup> among the other districts of the state. Gender Gap of the literacy rate is 26.3 percent in the district.
- The Scheduled Caste and Scheduled Tribe population in Udaipur district is 6.1 percent and 49.7 percent respectively whereas the State percent of Scheduled Caste and Scheduled Tribe population is 17.8 and 13.5 respectively.
- The economy of Udaipur district is mainly dependent on agriculture as 61.7 percent workers in the district are either cultivators or agricultural labourers. However the district percent of such workers is lower than the state average of 62.1 percent.
- Work participation rate (WPR) of Udaipur district has recorded 44.5 percent and gender gap in WPR is 18.0 percent points.
- In Udaipur district among the workers the percentage of cultivators, agricultural labourers, workers in household industry and other workers (category of workers) are 39.5, 22.2, 2.5 and 35.9 percent respectively.

## **Section - I**

# **Primary Census Abstract (PCA)**

## **Brief Note on Primary Census Abstract**

### **Introduction:**

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### **2. Population Enumeration - Census 2011:**

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28<sup>th</sup> February, 2011 along with a revisional round from 1<sup>st</sup> March, 2011 to 5<sup>th</sup> March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11<sup>th</sup> September, 2010 to 30<sup>th</sup> September, 2010 along with a revisional round from 1<sup>st</sup> October, 2010 to 5<sup>th</sup> October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

---
